**DETAILED ACTION**

***Status of Claims***

Claims 1-31 are currently pending.

***Allowable Subject Matter***

Claims 1-31 are allowed.

Hermann (US 3,965,519) discloses a disposable floor wipe for use in cleaning and shining linoleum, asphalt tile, vinyl and other similar floor surfaces comprises a carrier substrate (abstract).

The claims, as amended, now require a specific fluoropolymers and Hermann merely discloses the use of fluorocarbons. Neither the Hermann reference nor any of the cited prior art of reference teach or suggest the instantly claimed fluorinated polymers and surfactants.

It would not have been obvious to one of ordinary skill in the art at the time the invention was made to create the instant composition use the instantly claimed fluorinated polymers and surfactants, with water and a glossing agent, as the reference fails to disclose all of the instantly components in their required amount.

The remaining references listed on form(s) 892 and/or 1449 have been reviewed by the examiner and are considered to be cumulative to or less material than the prior art references relied upon in the allowance above.
